Governance and Compliance for Microsoft Teams

ZL Tech enables organizations to satisfy governance requirements for Teams messages, including supervision, retention, and eDiscovery.

Core Functionality

- Complete capture of Teams messages

- Review and Supervision

- Compliance with SEC and FINRA Rules

- Records Management

- Classification and Retention

- eDiscovery Search and Preservation

- Essential insights via Enterprise Analytics

Enable Compliant Collaboration

ZL Tech enables organizations to govern, review, and apply comprehensive compliance policies to content created in Microsoft Teams. ZL UA captures the critical components of every interaction, including Chat messages, Teams messages, files, and reactions. The platform leverages an advanced lexical analysis engine to flag violations for review and supervision, while also applying retention policies in compliance with regulatory requirements such as SEC 17a-4 and FINRA Rules.

Compliance Today, Insight for Tomorrow

Employee-created content in Teams messages can carry untapped insight into the human element of your organization. ZL Tech goes beyond regulatory compliance, leveraging content and metadata to deliver a complete picture of employee behavior patterns. By extracting critical information from each message, ZL Enterprise Analytics enables organizations to identify top performers, subject matter experts, opportunities, and risks.
