

ZLTECH

ZL UA for Data Governance

ZL Tech—a Gartner Magic Quadrant Leader serving the world's largest, most regulated companies.

ZL's UA platform solves the most difficult data governance, compliance, and privacy challenges, enabling organizations to regain control of fragmented enterprise data through a single, centralized platform. Backed by 20 years of expertise and Microsoft's Azure cloud, ZL delivers a versatile and scalable solution for organizations that seek to better manage their data.

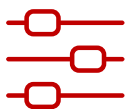

Scalable

Built to manage tens of billions of documents across the full range of enterprise repositories within a scalable and reliable cloud infrastructure.

Versatile

With a full spectrum of deployment modes including in-place management, cloud, hybrid, and multi-cloud, ZL UA + Azure offers large enterprises the versatility needed for today's evolving landscape.

Defensible

ZL UA enables organizations to find and defensibly manage sensitive data for privacy, compliance, and information security.

Chosen by 5 of the top 10 financial institutions in the United States

Meets multiple financial services regulations, such as SEC 17a-4, NYDFS, and PCI

Supports HIPAA compliance for healthcare and pharmaceuticals

DoD 5015.2 certified for the public sector and used internally by the National Archives and Records Administration

Enables compliance with privacy regulations, such as GDPR and CCPA

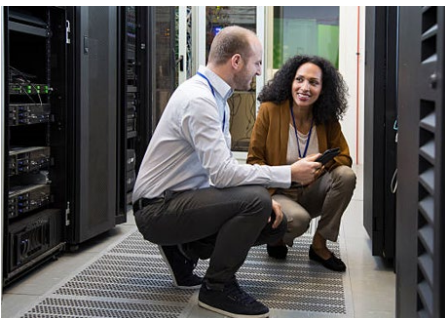

Backed by Microsoft Azure, with 90 compliance certifications and counting, the most of any public cloud
